

RICK SNYDER  
GOVERNOR

STATE OF MICHIGAN  
DEPARTMENT OF ENVIRONMENTAL QUALITY  
LANSING

DAN WYANT  
DIRECTOR

May 12, 2014

Dear Interested Party:

Thank you for your interest regarding the Permit to Install (PTI) application submitted by Severstal Dearborn, LLC, to the Michigan Department of Environmental Quality (MDEQ), for the purpose of changing to allowed emissions from the B and C Blast Furnace Operation and other associated equipment, at the facility located at 4001 Miller Road, Dearborn, Michigan. This application is subject to the federal Prevention of Significant Deterioration regulations.

Pursuant to state and federal requirements, the MDEQ held a public hearing on March 19, 2014, and a public comment period that ended on March 31, 2014, on its proposed conditional approval of the permit. The Air Quality Division (AQD) received 38 written comments during the public comment period and 44 verbal comments were presented at the public hearing.

After careful consideration of the issues and pursuant to the delegation of authority from the Director of the MDEQ, I have approved PTI No. 182-05C with modifications made to the proposed permit.

The Response to Comments (RTC) Document provides our responses to comments received during the public comment period and at the public hearing. It also identifies special conditions which have been modified and provides our rationale for modifying the proposed special conditions. The changes are listed in Section II of the RTC document. The RTC document and the Permit Terms and Conditions are available at <http://www.deq.state.mi.us/aps/cwerp.shtml>.

If you have any questions regarding this permit, please contact Ms. Annette Switzer, AQD, Permit Section, at 517-284-6803; [switzera@michigan.gov](mailto:switzera@michigan.gov); or MDEQ, P.O. Box 30260, Lansing, Michigan 48909-7760; or you may contact me.

Sincerely,

G. Vinson Hellwig, Chief  
Air Quality Division  
517-284-6773
